## POLE GRIPS

These spring-loaded metal clips allow for secure mounting of the flag onto a 1" outside diameter pole.

The design of the NeverFurl® device allows each rotator to work independently with the wind by moving up and down **and** rotating around the pole thereby eliminating flag wrapping. Works with all flag sizes regardless of changes in wind speed or wind direction.

## NEVERFURLS

With NeverFurl you can fly your flag all day long, every day of the year, and the wind will never wrap your flag around the flagpole. The NeverFurl kit is easy to install and comes complete with everything needed including instructions and detailed drawings. No additional tools are required.

## 9' x 1" ROTATING POLE with GROUND SLEEVE

This white painted **aluminum**, two piece pole is your ultimate choice for a display pole. The top rotates on ball bearings so the flag will never tangle. For the easiest and most versatile installation, this pole comes with two flag fasteners for flying a grommeted flag and also with a snap and swivel ring for displaying flags with a pole sleeve and tab. The pole comes complete with a galvanized steel ground sleeve. **This pole is individually boxed and packed six per master carton. All pricing and weights are for individual poles but these poles are sold in lots of six only. The flag pictured is not included in the pricing.**
